

We Will Remember

Tune of *The Water is Wide (D)*

We will remember Michael Brown,
Eighteen years old when they shot him down.
A human being just in his prime,
And "walking black" was his only crime.

Jonathan Ferrell, Emmett Till,
Kimani Gray, Travares McGill,
Trayvon Martin, Sean Bell,
And Oscar Grant, we remember well ...

We Grannies all cry out in pain
To see it happen once again.
We worked to end Jim Crow at last,
And we won't go back to our racist past.

The cops with guns across our land
Have got to stop and understand
That all of us are Michael Brown ...
And tho' they try, they won't keep us down.

Granny Vicky Rider

How much is that shotgun?

Tune of *How much is that doggie (G/D)*

How **much** is that **shot**-gun in your **window**
The **one** that is **made** for a **youth**
How **much** is that **weapon** you are **selling**
I **can't** wait to **see** what it **shoots!**

I **know** there have **been** some school **shootings**
When **weapons** got **in** the wrong **hands**
So **all** kids need **shotguns** for **protection**
And **guns** for their **grampas** and **grans!**

They **don't** need a **bunny** or a **kitty**
Let's **start** kids as **soon** as they're **six**
So **don't** buy them **bowls** of little **fishies**
Instead buy them **shotguns** from **Dick's!**

You **say** you can **sell** us **ammunition**
For **duckies** and **deer** and big **game**
A **rifle** with **hundreds** of your **bullets**
Kills **hundreds** of kids all the **same!**

Big **business** needs **us** to buy their **weapons**
The **NRA** **helps** them get **fat**
So **hook** kids on **killing** little **duckies**
Politicians will **thank** you for **that!**

Guns don't make us safer

Tune of *Frère Jaques*

Put your guns down
No more Newtowns
Guns just kill
Yes they will
Since that day in Newtown
Thousands more were shot down
Dying still; Dying still

No more women
Shot by abusers
They do kill
Yes they will
Guns don't make us safer; Guns don't make us safer
Take their guns; Take their guns

Urban violence
Drive-by shootings
Stolen guns
Stolen guns
Gangs are killing children
Crooks are killing children
Cops need help; Cops need help

Politicians
Politicians
Ignore our grief
Ignore our pleas
Time to ban together
Form our coalitions
Vote them out; Kick them out

WE the people
WE the people
Now declare
Now declare
GUNS DON'T MAKE US SAFER
GUNS DON'T MAKE US SAFER
Join us now; Join us now

Granny Nina & Marlies

Gun Solutions

Tune of *My Bonnie Lies over the Ocean...*

Your **dad** has an **old**-time **revolver**
He **keeps** it high **up** on a **shelf**
Go **try** out that **quick** problem **solver**--
Beware that you **don't** shoot your**self**

You **won't** need a **government permit**
To **buy** a few **guns** at the **show**
There's **thousands** of **interesting choices**
Just **load** your Peacemaker and **blow!**

Chorus: DON'T SWEAT, DON'T FRET...
PLAY SOME MORE GAMES ON THE INTERNET
DON'T SWEAT, DON'T FRET...
THE PEOPLE THAT BUGGED YOU ARE DEAD!

Pull out your A Kay-47
When traffic jams leave you unwell
You might send some good folks to Heaven
The bad guys will go straight to Hell

You want to teach school mates a lesson
They took you too long for a fool
At lunch wield your new Smith& Wesson
You'll show them who's righteous and cool

Chorus: DON'T SWEAT, DON'T FRET...
PLAY SOME MORE GAMES ON THE INTERNET
DON'T SWEAT, DON'T FRET...
THE PEOPLE THAT HURT YOU ARE DEAD!
